Orange City, FL 32763

During this class Elizabeth will teach you how to take your fleeces from raw to a finished drum carded batt ready to sell. Along the way she will share her hints and tips on how to market your products and things she has learned along the way.

We will cover, selecting fleeces for processing, washing, dyeing and blending of different fibers with alpaca on a drum carder. Participants also have the option of dyeing roving, yarn or firestar and we will also dye some bamboo with fiber reactive dyes. We will also discuss marketing your products online and at fiber festivals.

The second day will be all about drum carding & the effect that different fibers have when blending with alpaca. We will also make hand pulled roving from the drum carders. Layered batts, blended batts, art batts and more.
